AP's high school Biology course is a rigorous, college-level class that provides an opportunity to gain the skills and experience colleges recognize. Do you understand the differences between DNA and RNA? Can you rattle off the phases of meiosis? The AP<sup>®</sup> Biology exam tests topics and skills discussed in your high school Advanced Placement Biology course. If you score high enough, your AP Biology score could earn you college credit! AP Curriculum Calculator A resource for teachers developing their curriculum. This is an Excel spreadsheet. Input the total number of teaching days that you have in your school year and the spreadsheet will automatically calculate how many days you can devote to each unit, roughly based on the percentages recommended in the College Board's AP Biology Course Description "Acorn" book. Increase your knowledge of the topics you'll be tested on when you take the CLEP Biology exam with this study guide course. You can use the short...
