

Download Asus Rt N66u Dhcp Manual Assignment

In this article I use an Asus AC68R as the Internet router, and an Asus RT-N66U as the VPN router. IP Address Plan. I recorded the IP addresses for my routers in Table 2. You can use these settings for your routers also. I've yet to see a camera not allow you to set any valid IP address or use DHCP to get one from a router. Each camera has its quirks, for example, with ACTi, you set the IP, but then you have to click on save & reboot for it take and if you go to another menu before you do that, it loses that setting.
