

Download Bmw E90 Manual Transmission Fluid Change

The BMW E90 manual transmission fluid is filled at the factory with lifetime fluid (green arrow). However, BMW does not define what the lifetime is. Therefore, it is a good idea to service your fluid every 60,000 miles. If you're unsure of the last service, replace the fluid as soon as possible. Doing so will extend the life of your transmission. BMW DIY – Manual Transmission and Differential Fluid Change How To. Both plugs are internal hex (Allen type). The drain plugs on early BMWs are removed using a 10mm hex tool; most later BMW drain plugs require a 14mm hex tool (see our 10mm, 14mm, 17mm shorty hex tool kit). In most applications, two quarts of fluid will be required,...
