Small Block V8 (221, 260, 289, 5.0/302, 5.8/351W) - 351W engine manual - Any recommendations on a complete 351W/ford small block maintenance manual? The 351 Windsor engine was produced by Ford and had a long reign, beginning in the 1960s, and although not commercially available, it is still used by many rebuilding Ford small blocks for their project cars. The 351 Windsor also belongs to the Ford Small Block family - not to be confused with the mid-sized-block 351 Cleveland, a different engine of the 335 family. The "Modified" engines are also in a different vein, and not generally as popular or well suited for Jeep conversions.
