

Download Principles For The Selection Of Doses In Chronic Rodent Bioassays

Abstract. Dose selection in chronic rodent bioassays has been one of the most debated issues in risk assessment. The Committee on Risk Assessment Methods of the National Research Council attempted, but failed, in 1993 to reach consensus on how to select doses for chronic rodent bioassays. However, a more recent effort conducted by...Dose selection in chronic rodent bioassays has been one of the most debated issues in risk assessment. The Committee on Risk Assessment Methods of the National Research Council attempted, but failed, in 1993 to reach consensus on how to select doses for chronic rodent bioassays.Principles for the Selection of Doses in Chronic Rodent Bioassays [Jeffery Allen Foran] on Amazon.com. *FREE* shipping on qualifying offers.
